

Earial - Chords Embrace

(Music, arrangement, lyrics: Steven van der Steen © 2005)

to you i speak words about the things i have done
where i was today
and jokes i forgot or the prices we pay
all in one

the secrets we have reach the surface when we
get in that room and play
and somehow our words are not loud enough, so
we celebrate chord embrace

maybe it's me, but i think it's ok
to make our connection this way
i really don't know if this keeps you awake
or if this is for my own sake

so we go
on gracious flow
the same blood
through our heart

the moments we talk we both stumble along
that's why it's hard to say
that sometimes you feel like a stranger to me
except while our chords embrace

so we go
on gracious flow
the same blood
through our heart

you tell me
what i can't see
i tell you
your missing views

you tell me
what i can't see
i tell you
your missing views
