

## Earial - Five Weeks

(Music, arrangement, lyrics: Steven van der Steen © 2005)

my baby's gone to china, will be long gone  
my baby's on the highway, should be real strong  
when she's back i'll give her yellow flowers cause i love her

i will be missing her because she's feeling  
i will be kissing her when i am dreaming  
when she's back i'll say hello cause i am really glad

five weeks of worries  
five weeks goodbye

all around me people hug and slowly  
it's coming to my mind her love still owns me  
when she's back i'll give her yellow flowers cause i love her

singing this song helps to realise  
my baby will be safe and warm and nice  
enough money, walking shoes that shine: my baby'll have a great time

five weeks of worries  
five weeks goodbye
