

Earial - The Rain (part two)

(Music, arrangement, lyrics: Steven van der Steen © 2000)

my head is full of gray again
i'm doing it for you
cause the formula won't do
and i can not pretend
i have got feelings too
i will lose

what a fault
optimistic fool
find another blue
what a fault

and at last the shadow's gone
two bodies disappear
now no one interferes
with our secret world
untouchable, high up there
we will win

other ones
excentric belief
half the words will do
beamery
